OPPORTUNITY

According to the same logic, the fact that challengers and opponents share issues of concern without being exposed to the potential moderating influence of more positively disposed groups represents a source of sociopolitical risk.

(bubbles indicate average mentions per stakeholder)

weighted by effective power)

- transport infrastructure
- land use and waste
- unemployment
- sanitation/hygiene
- rates and payments
- education infrastructure
- water
- community infrastructure
- negative health concerns
- Education/skills training
- information provision

Integration: FVTOOL, Value Protection

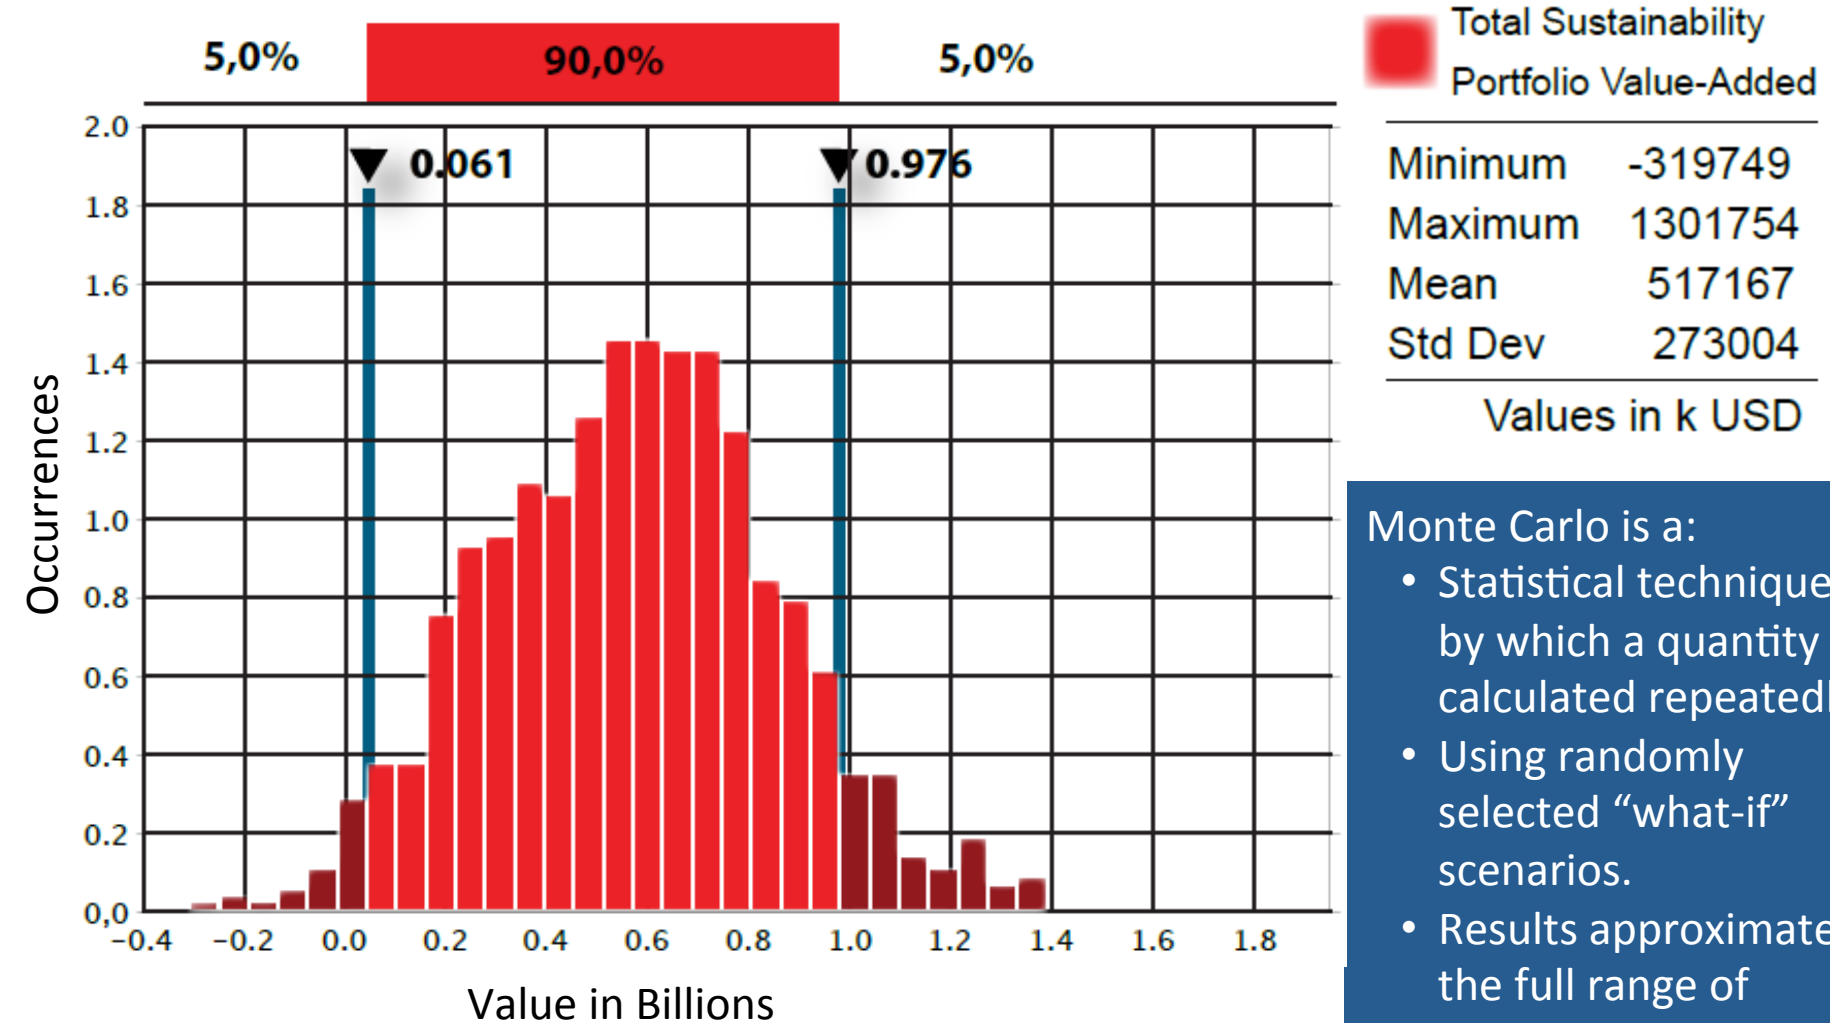

Sustainability - related event (risks) could cause a substantial decline in value of a project, such as:

1. Delay in the planning phase (pre-feasibility, feasibility)
2. Delay in the construction phase
3. Disruption in the production phase (operations)
4. Project cancellation/expropriation
5. Added (unforeseen) costs
6. Lawsuits

Annual Rate of Occurrence	Duration (months)	One Time Cost	Lost Revenues
Min: 0.3 Likely: 0.45 Max: 0.6	Min: 0.1 Likely: 0.4 Max: 0.7	Min: 140k Likely: 250k Max: 500k	Min: 20% Likely: 40% Max: 60%

Objective: to model cash flow, based on Monte Carlo simulations

Integration: FVTOOL, Monte Carlo Simulation

Monte Carlo is a:

- Statistical technique by which a quantity is calculated repeatedly
- Using randomly selected “what-if” scenarios.
- Results approximate the full range of possible outcomes

Integration: FVTOOL, NPV of sustainability

Dashboard - Total Sustainability Value Added

Sustainability Issue /Initiatives	Value Creation NPV Calculations	Value Protection NPV Calculations	Total SD/CR added value (NPV)	Relative Share	Sharpe Ratio

For \$2billion CAPEX project, sustainability investments returned as much as \$187 million of NPV.

NOVO NORDISK **WAY** IS OUR WAY

- In 1923, our Danish founders began a journey to change diabetes. Today, we are thousands of employees across the world with the passion, the skills and the commitment to continue this journey to prevent, treat and ultimately cure diabetes.
- Our ambition is to strengthen our leadership in diabetes
- Our key contribution is to discover and develop innovative biological medicines and make them accessible to patients throughout the world.
- We aspire to change possibilities in haemophilia and other serious chronic conditions where we can make a difference.
- Growing our business and delivering competitive financial results is what allows us to help patients live better lives, offer an attractive return to our shareholders and contribute to our communities.
- We never compromise on quality and business ethics.
- Our business philosophy is one of balancing financial, social and environmental considerations - we call it 'The Triple Bottom Line'.
- We are open & honest, ambitious & accountable. We treat everyone w/ respect
- We offer opportunities for our people to realise their potential.
- Every day, we must make difficult choices, always keeping in mind, what is best for patients, our employees and our shareholders in the long run.
