Meeting South Africa's infrastructure needs

Development in Durban meant that the Mahatma Gandhi Road sewer pump station, one of the largest in KwaZulu-Natal, had to be relocated.

Hatch employed trenchless tunneling technology to ensure a successful outcome for this award-winning project.

We contributed industry-leading and innovative project management to help South Africa continue developing its infrastructure needs. To learn more, visit www.hatch.ca.

Stephen Pincus

Partner, Goodmans LLP

It's my great pleasure to welcome you to our 14th Annual Indaba evening.

It was an exciting year for the Chamber highlighted by the celebration of our 20th anniversary. Our success over two decades was reflected in a video on the Chamber with commentary by a cross section of members reflecting on the Chamber, what it means to them, and the benefits they have realized over the years.

The Chamber continues to fulfill its mandate of promoting trade and investment between Canada and Southern Africa, and offering its members and guests quality programming and networking opportunities. In 2015 we undertook a comprehensive Strategic Plan review to ensure that our success will continue well into the future.

In addition to our many successful ongoing programs, we also introduced a new seminar this year on "Infrastructure in Southern Africa: Challenges and Opportunities", featuring experts from Canada and South Africa who focus on this key aspect of Southern Africa's future economic growth.

Despite the challenges of the global economy, and the resources sector in particular, the Chamber continues to thrive.

For this, I would like to congratulate our Board of Directors, our volunteers, our indefatigable President, Bruce Shapiro, and of course you - our sponsors, members and guests. Thank you all for your contribution to the Chamber over the past two decades – and the next two!

With best wishes for a wonderful evening,

Stephen Pincus

Bruce Shapiro

President, MineAfrica Inc. and A.P.O.C. Inc.

Welcome to our 14th Indaba!

Our year began with a cocktail reception to celebrate the Chamber's 20th Anniversary. The Rt. Hon. Bob Rae, the Chamber's Patron when it was formed, was our guest of honour at this celebration. Mr. Rae gave an engaging talk and also spoke of his personal interactions with the late Nelson Mandela, giving us insights into both the man and Canada's role in shaping South Africa's new democracy. Mr. Rae was introduced by Stephen Pincus, the Chamber's first and current chair.

One of our truly great achievements is that the Chamber, in conjunction with Grand Sponsor MineAfrica, hosts the largest African focused mining event in the Americas during the Prospectors and Developers Association (PDAC) annual convention. As usual, this year's event was a sellout. To see the impressive list of keynote speakers for this and all past Chamber events see page 30 in this program

Back in 2006, Hatch, the lead sponsor of the Chamber, had the foresight to recognize Corporate Social Responsibility (CSR) as a critically important risk mitigation strategy. Since then, they have sponsored our internationally recognized series of seminars on this topic in Toronto, London UK and Vancouver.

To ensure that the Chamber remains relevant and continues to grow, we have a committee undertaking a broad strategy review. The results of this review and its recommendations will be presented to the board for consideration later this year. Thank you all for your hard work!

Much has been achieved by the Chamber during the past 20 years. It is most gratifying to review the major contributions that our various boards, individual members and the unseen but vitally important volunteers, have made to our success. Thank you all.

Very special thanks go to Goodmans, the Chamber's home, and Stephen Pincus for their unwavering support. Stephen, it has been a privilege working with you all these years!

Most of you know Wayne Floreani but not all are aware of the effort, dedication and attention to detail he applies to the many things he does for the Chamber and the support he gives me. Thank you Wayne!

Our sponsors, members and guests, are the people who keep the Chamber alive - thank you so much for your support. Please read our sponsors' information in this booklet and use their services when you can!

Perhaps the least known fact about the Chamber is that four of our past speakers have become either leaders or deputy leaders of their respective countries, a great advertisement for us indeed.

Tonight you will experience the jewel in our crown, Indaba. Enjoy!

Trueman Tandabantu Goba

Chairman, Hatch Goba Ltd

Trueman Goba is the Chairman of Hatch Goba (Pty) Ltd, part of the Hatch Group of companies.

He was born in Chesterville, Durban in South Africa and attended high school at Polela, Bulwer, Kwa-Zulu Natal. He studied in Seshego, Pietersburg to become a survey technician. Later he graduated with a BSc Eng at University of Natal, and subsequently with MEng (Civil) at Cornell University, in the USA.

In 2013 his company GOBA (Pty) Ltd, merged into the Hatch Group.

He has been President of the SA Institution of Civil Engineers (SAICE) in 2002, the Engineering Council of South Africa from 2007 to 2009, and has been a member of several boards. In 2010 he was appointed by the President of South Africa on the first National Planning Commission. He was awarded a Gold Medal by the SAICE in 2013 and the Engineering Leadership Award by McMaster University Faculty of Engineering in May 2015.

Hatch is an employee-owned, multidisciplinary professional services firm that delivers a comprehensive array of technical and strategic services, including Consulting, Information Technology, Engineering, Process Development, and Project and Construction Management to the Mining, Metallurgical, Energy, and Infrastructure sectors. Hatch companies have served clients for over 100 years and have project experience in more than 150 countries around the world. With 10,000 people in over 65 offices, the firm has more than US\$35 billion in projects currently under management.

Clients recognize Hatch for its ability to bridge the gaps between research and innovative technologies, and between engineering and reliable operations. We are particularly known for working with senior client management to develop business strategies; managing and optimizing production; executing projects that involve the scale-up of process technologies; and managing startups, commissioning and ramp-ups.

Hatch delivers unprecedented business results for our clients through a commitment to quality, lower operating costs, more efficient utilization of capital assets, higher standards for safety and risk management, faster startups and continuous performance improvements in all projects and programs. www.hatch.ca

TRADE MISSION TO NAMIBIA

Multi-Sectoral

October 26 – 30, 2015

The High Commission of the Republic of Namibia to Canada is planning a multi-sectoral Trade Mission to Namibia and is inviting all interested business people and companies to join **HE High Commissioner Martin Andjaba** on this Trade Mission. The Trade Mission will be multi-sectoral and aims to promote Agribusiness; Infrastructure; Mining, Oil and Gas Exploration; Renewable Energy; Manufacturing; Hospitality; Telecommunications; Health & Medical Services, etc.

Registration for participation is free, however, participants are expected to pay their own airfare and accommodation. The Namibian Government will provide ground transport and secure favorable rates at local hotels. **Participation in this Trade Mission is limited to 10 participants, therefore early registration is encouraged.**

Meetings will include:

- Meetings with high level government officials
- Briefing and presentations by various government ministries, agencies and organizations (private and public)
- One-on-one meetings may be requested
- Site visits to Namibian factories

TO PARTICIPATE AND REGISTER - BY SEPTEMBER 30, 2015

Botswana Investment Hub

Botswana Innovation Hub was conceived out of the Botswana Excellence Strategy of 2008 which proposed a three-pronged national strategic goal; being economic diversification, job creation, and moving the country towards a knowledge-based economy. Botswana Innovation Hub which is also aligned to the National Vision 2016's pillar of achieving a prosperous, productive and innovative nation aims to develop advanced Science and Technology innovation capital and activities in the country by attracting innovators, channelling the requisite support services and conditioning the investment climate.

Botswana Innovation Hub is incorporated as a company under the laws of Botswana to develop and manage Botswana's first Science and Technology Park through which it will contribute to the country's economic development and competitiveness by creating new scientific, technological, and indigenous knowledge-based business opportunities.

Botswana Innovation Hub fosters entrepreneurship and technology transfer to develop start-up companies and add value to existing companies, generates knowledge-based jobs and attract innovative companies and institutions to Botswana Innovation Hub. www.bih.co.bw

Export Development Canada

EDC is Canada's export credit agency, offering innovative commercial solutions to help Canadian exporters and investors expand their international business. EDC's knowledge and partnerships are used by more than 8,400 Canadian companies and their global customers in up to 200 markets worldwide each year. EDC is financially self-sustaining and is a recognized leader in financial reporting, economic analysis. www.edc.ca

The High Commission of the Republic of Namibia

The High Commission of the Republic of Namibia represents the President, the Government and the people of Namibia. It is responsibilities are to maintain, promote and further strengthen the relations that exist between Namibia and the countries of its accreditation. The High Commission continues to market Namibia as the most excellent destination for tourists - with abundant wild life and awesome scenery - and an ideal country for trade and investment. Namibia has an abundance of natural resources, among them, a wide range of mineral deposits. Namibia has rich fishing grounds, with both demersal and pelagic species. Namibia's agricultural sector is also imperative to the country's economy with a thriving red meat industry and the cultivation of crops such as maize, wheat, pearl millet, groundnuts, beans and cotton. www.namibianembassyusa.org

SGS

Does your investment or project require an integrated approach? Let SGS partner with you and find the best solution to meet your needs. between Canada and Southern Africa*

2015/2016 Membership Information

The Canada-Southern Africa Chamber of Business is a dynamic and influential business organization dedicated to promoting and developing business interests between Southern Africa and Canada. The Chamber provides a focal point for establishing business contacts and networking opportunities, and advancing common interest agendas for a diverse and vital membership with an interest in Southern Africa. With strong working links with the Canadian and Southern African governments, as well as other trade related organizations, the Chamber can assist you in identifying business partners and opportunities.

The Chamber offers you a broad range of services by:

- Providing networking opportunities for members by organizing meetings with high profile speakers, chosen for their significant knowledge of important issues of interest to members.
- Providing access to a broad cross-section of relevant contacts and to current information on investment and trade.
- Serving as a Canadian point of reference for Southern African trade missions and Southern African companies.
- Posting of member events and news on Chamber website
